# Student Social Responsibility – LOG

Student's Name: AARYAVIR SHAH

Grade: 11 B (AS LEVEL)

Name of the NGO: AKANKSHA FOUNDATION

It is mandatory for all the students to fill in this log sheet after every NGO service or Green Initiative project that you have been a part of.

| Date | Community Service Activities | Hours completed |
|---|---|---|
| 11/9/2025 | I participated in the orientation session organized by the Akanksha Foundation and gained insight into the organization's mission, which focuses on supporting children through educational opportunities and mentorship. I became aware of my role as a volunteer and how I can contribute positively during my period of service. | 1 |
| 19/9/2025 | I supported the children by engaging them in English reading activities and encouraged them to take part actively and confidently. I also worked to keep the learning atmosphere positive and well-organized throughout the session. | 1 |
| | | |
| 10/10/2025 | This was my first time with stray dogs, and it was an experience I will never forget. I petted the dogs, took them for a walk, and even fed them food. This taught me to be empathetic towards animals. | 1 |
| 7/11/2025 | Helped children with classroom activities such as roleplay and choreography. Encouraged them to take part to help them feel more confident. | 1 |
| 12/12/2025 | Structured and engaging learning activities were designed to blend education with entertainment. Developing positive relationships with the children fostered a welcoming atmosphere that encouraged their enthusiasm for learning. | 1 |
| | | |
| 19/12/2026 | I spent time interacting with the children using educational games and conversations, which helped enhance their communication and teamwork abilities. This session allowed me to develop and refine my leadership and mentoring skills. | 1 |
| 14/01/2026 | Supported the children in their academic work while helping them maintain motivation and confidence. Collaborated with teachers to ensure that each child was fully involved in the learning process. | 2 |
| 23/01/2026 | I taught the kids mathematics and basics in addition, subtraction, and multiplication. The kids really enjoyed the activity, and it was fun for both the kids and me. | 2 |
| 4/02/2026 | Kala Godha - I was first introduced to the kids, and I first made the kids comfortable. We started with a painting activity where I taught them to use | 2 |
